REPORT OF BOARD OF HEALTH.

The following contagious diseases have been reported during the year:

Twelve cases of Typhoid Fever, 8 of which were at West Lebanon and 6 in one house, contracted without any doubt, from the use of Mascoma River water for washing purposes. No deaths.

Fourteen cases of Scarlet Fever with one death occurring at East Wilder. A wide spread epidemic of Measles is prevailing, there having been not far from 300 cases with one death from complications. Six deaths have occurred from Tuberculosis.

Many complaints of nuisances have been investigated and corrected where possible.

In several instances we have had great difficulty in getting house owners to connect with the sewer and quite a number have, as yet, failed to do so. During the coming season we shall see to it that every one owning a house within 100 feet of a public sewer, uses entrance thereto. The expense is small and getting rid of these disease breeding spots would mean much to the town.

There is a law forbidding children attending public schools unless showing evidence of having been vaccinated. That law has not been enforced in this town for some years.

Therefore we give notice that in compliance with that law no child will be allowed to enter the public schools at the beginning of the next school year without a certificate or other evidence of vaccination.

and estimate about two thirds of above bills can be collected.

There are also due on bills prior to 1911 and extending back several years, the sum of \$343 63 which they regard as practically uncollectable.

They report the cemeteries practically out of debt.

Your committee, during the past season, have done much in way of improvement in Glenwood Cemetery, drawing loam and seeding down each side of the avenues. Also extended the Precinct water the entire length of the cemetery, thus making it very convenient for those who have flowers on their lots; and there is much more work that needs to be done, which will in time make this one of the best cemeteries in the State.
